DISC & DRIVING FORCES

EQUIP YOUR TEAM WITH THE TOOLS TO WIN!

DISC is the world's leading behavioral assessment tool. It is a scientifically valid instrument that is used by 1 million people every year. Taking and using the DISC inventory can give you insights into yourself, helps you see inside the minds of others to create clear communication, and learn to accept differences, reduce disagreements, and get things done with others.

When individuals don't understand their **Driving Forces**, or the motivators hidden deep within, they fail to understand **WHY** they make the choices they do. Understanding the **Driving Forces** helps you understand why you are passionate about some issues, why you perceive some things as important and some as way down on the totem pole of significance to you.

Driving Forces are part of our mind-set, our way of perceiving value, our filters and biases which ultimately influence our decisions. Enlightening is the word used by those who discover the **WHY** inside of them.

TO JOIN
YOUR TEAM!**

HOW DOES IT WORK?

We would love to come along side of you to equip your team with the ESSENTIAL SKILLS OF EXECUTIVE LEADERSHIP. You can book us to speak at an event or conference and choose the topics you would like for us to cover. However, we would love to take your team through the entire Leading Forward program over the span of 4 months. We would spend 1-2 days per month with you as a part of your team!

MONTH .01

- Integrity of Heart
- Dream Big
- Self-Awareness

MONTH .02

- DISC
- Driving Forces
- The Power to Change

MONTH .03

- Servant Leadership
- Situational Leadership
- Exemplary Practices

MONTH .04

- Developing a Bench
